

# Strategy to Reality: Implementing Decarbonisation and ESG Strategies

## PIANC Pre Conference Workshop

Join us for a half-day workshop hosted by PIANC dedicated to the practical implementation of decarbonisation and Environmental, Social, and Governance (ESG) strategies in port and maritime operations and infrastructure.

### Key Topics:

- **Economic and Regulatory Aspects:** Navigate the challenges and opportunities presented by environmental regulations, reporting requirements, and market pressures.
- **Environmental and Economic Synergy:** Explore the relationship between environmental performance and economic viability.
- **Real-Life Implementation Examples:** Learn from case studies in our region showcasing best practices and lessons learned in decarbonisation and ESG implementation.

Attendees will gain practical insights into implementation strategies, stakeholder engagement, and responsibilities and opportunities for designers essential for advancing decarbonisation and ESG in port and maritime operations and infrastructure.

Speakers will include industry experts including members of international PIANC Commissions and Working Groups, government organisations, sustainability experts and Australian ports as outlined in the program included below.

## Details

**When:** 18 August 2025 11:30am-17:15pm ACST

**Where:** Adelaide Convention Centre City Rooms 1-2
