

MARINE CONCRETE

DURABILITY, MAINTENANCE, AND BREAKTHROUGHS IN CONCRETE TECHNOLOGY

18–19 June 2026

Launceston, Tasmania

Join PIANC Tasmania and the Concrete Institute of Australia at UTAS Inveresk Campus for a two-day seminar looking at concrete technology for the marine environment.

Our speakers will cover the full spectrum of perspectives including asset owners, design consultants, technical R&D, and marine contractors.

DAY 1 | SEMINAR

UTAS Inveresk Campus

- Industry perspectives
- Technical presentations
- Project case studies

Keynote Highlights

- Claire Tubolets, SmartCrete CRC Chief Executive Officer
- Michael de Vos, TasPorts Group Executive Major Projects, Assets and Technical Services

Evening Networking

- Connect with likeminded professionals over dinner and drinks at the Boathouse Centre

DAY 2 | TECHNICAL TOUR

Bell Bay – via Tamar River Cruises

- Experience Bell Bay like never before, with a technical tour aboard Tamar River Cruises on Friday morning 19 June to view two recent concrete remediation projects at Bell Bay from the water
